HOW TO SAVE A LIFE? THERE'S AN APP FOR THAT

App to earn
volunteer
hours.

With a free download from the Apple Store or Google Play, the **Mikey Young at Heart App** will deliver a life-saving lesson for high school students and provide volunteer hours needed to graduate.

The app uses videos and quizzes to make learning about CPR and handling Automatic External Defibrillators (AED) fun. The app allows students to log and organize their hours from other community service activities. Students can use the app anywhere they take their smartphone, tablet or computer – it's that easy. For 12 years, the **Mikey Network** has installed life-saving Mikey defibrillators in schools across Ontario. Now, Mikey wants to build on that connection – by connecting students to the Mikey App.

To date, there have been 27 recorded lives saved from a Mikey defibrillator.
